Education

Master of Science in Data Science

August 2023 - May 2025

Indiana University Bloomington — GPA: 3.87/4

Bloomington, IN

Bachelor of Engineering in Electronics and Communication Engineering

August 2018 - June 2022

Osmania University — GPA: 9.01/10

Hyderabad, India

Work Experience

Indiana University

April 2024 - Present

Marketing Data Analyst – Communications and Marketing

Bloomington, IN

- Achieved comprehensive tracking of **digital marketing** campaign metrics across all 10 Indiana University campuses using **Google Analytics** resulting in enhanced insights for targeted marketing strategies.
- Led **A/B testing** initiatives to optimize email campaigns, resulting in a **40% increase in enrollment yield** through improved targeting and personalized content strategies.
- Developed and maintained **100+ data workflows** using **SQL, Python, and Excel**, streamlining CRM data prep and improving campaign performance tracking across 350+ university departments.
- Built scalable **ETL pipelines** and structured datasets to deliver real-time insights, contributing to a 35% boost in targeting accuracy and generating **\$440K+ in attributed revenue**.
- Created **interactive dashboards and reports** using **Looker Studio and Tableau**, enabling leadership to monitor KPIs such as open rates, conversions, and campaign ROI.

Luddy School of Informatics, Computing, and Engineering

April 2024 - January 2025

Research Data Analyst

Bloomington, IN

- Analyzed **terabyte-scale precipitation datasets** using **Python** and HPC resources to support climate risk modeling and infrastructure planning.
- Created standardized pipelines for quality checks across weather and satellite data, improving consistency and reducing processing time by **40%**.
- Built **Power BI dashboards and geographic visualizations** to communicate findings to stakeholders across the Midwest.
- Collaborated with planners and climate researchers to publish a public-facing dashboard, supporting climate literacy and data access in Indiana.

The Sparks Foundation

February 2023 - March 2023

Data Science and Business Intelligence Intern

Hyderabad, India

- Conducted **exploratory and predictive analysis** on **3 years of transaction data** using **SQL and Python**, identifying high-risk patterns across regions.
- Developed and validated **fraud detection dashboards** with **Tableau**, improving investigative efficiency and cutting response time by **20%**.
- Built classification models (**Random Forest, XGBoost**) that achieved **92% accuracy**, reducing false positives by **15%** and supporting operational decisions.
- Aligned data insights with key **business KPIs**, increasing internal stakeholder confidence in predictive systems.

Projects

Supply Chain Efficiency Dashboard | Tech Stack: Python, Power BI, SQL, Airflow

- Built a **Power BI dashboard** for tracking **inventory and order fulfillment KPIs**, enabling an **18% boost in efficiency** and **27% drop in supplier lead time** via **automated insights** and **Airflow pipelines**.

Patient Health Outcome Analysis | Tech Stack: PostgreSQL, Python, Tableau

- Analyzed **200,000+ patient records** to identify readmission risks, building a **Tableau dashboard** that reduced readmissions by 17% and improved care quality by 34%.

Skills and Certifications

Languages: SQL, Python, R

Data Tools & Platforms: Google Analytics(GA4), Google Tag Manager, Looker Studio, Excel, BigQuery, Power BI, Tableau, Salesforce, PostgreSQL, Airflow

Python Libraries: Pandas, NumPy, Seaborn, Matplotlib, Scikit-learn

Analytics Skills: CI/CD Pipelines, Data Visualization, Statistical Analysis, A/B Testing, KPI Reporting, Forecasting, Data Cleaning, ETL Pipelines, Dashboarding, Business Intelligence

Soft Skills: Communication, Problem Solving, Team Collaboration, Time Management, Critical Thinking

Certifications: Google Analytics (GA4), Microsoft Certified: Power BI Data Analyst Associate
